

Winter Rinse 4L #56544

For use on resilient tile and most floors (stone, terrazzo, concrete, etc.) where excess alkalinity may cause dulling or adhesion problems. Please note that use on some polished marble floors may cause etching. Test in an inconspicuous area first for any etching before treating any large area. Can be used with an auto-scrubber with Light Cleaner Red pads with vacuum on to pick up all residual solutions.

Directions:

Clean floors in normal manner using a neutral cleaner, properly diluted to remove any residue. Dilute Winter Rinse in autoscrubber or pail according to dilution rate:

Light to moderate build-up	1:128 (1oz per gallon of water)
Heavy build-up	1:64 (2oz per gallon of water)

Damp mop floor or use auto scrubber with light cleaning red pad. If mopping, damp mop the floor a second time using clean water to remove any residue. Allow to thoroughly dry before burnishing.

Benefits

- Removes ice melt films that damage floor surfaces
- Biodegradable
- Can be used in auto-scrubbers or mop-on applications

Physical Properties

- Appearance - Clear yellow/orange liquid
- Odour - Chemical
- pH - 2.0 - 3.0
- Specific gravity - 1.02

Precaution:

Safety glasses are recommended. Store in a cool dry place. Keep away from incompatible material.

First Aid:

Safety glasses are recommended. Store in a cool dry place. Keep away from incompatible material. Refer to Material Safety Data Sheet for more information.
